RETURNING FROM HIS EUROPEAN TRIP OF OBSERVATION.

HE HAS STUDIED MILITARYISM.

WILL RECOMMEND IMPROVEMENTS IN UNCLE SAM'S ARMY.

United States' Ability to Cope With One of the Great European Powers-Comments on Euro-. . . . pean Armies and Their Maneuvers.

London, Oct. 2.—(Correspondence of the Associated Press.) General Nelson A. Miles, Mrs. Miles and Aide-de-Camp Captain Mans sail for the United States or the American line steamer St. Louis, or October 2. The commander of the army has been in Europe since May on his tout of military observations and has inspected everything of military interest from the armies of the great powers in field action down to "balloons and bicycles," as he re marked. He has looked over fortifications barracks, camps, ordnance works of all classes and in the intervals of this work has written three reports to the government covering different features of Euro-pean militaryism. After his return he will, with the assistance of Captain Maus, pre-pare another and more comprehensive re-port in which will be embodied resommen-dations for the improvement of the United States army.

States army. Incidentally, General Miles has met most of the rulers of Europe, including Queen Victoria, the exar of Russia, the emperor of Germapy, the Sultan of Turkey and the president of France. The president of the French republic however, he considers to be in every characteristic the peer of royalties of Europe.

President Faure is one of the most

military establishments, the principal gun factories and foundries, where the material of war is constructed from the most minute small caliber projectiles to the heaviest armorplate. I have seen all the great armies of Europe except the Spanish army, and if Spain should declare war against the United States I may possibly have an opportunity of seeing that. Of something over 3,000,000 mea-under arms, I have seen nearly 400,000 in barracks, and in garrison, and in field maneuvers, besides nearly 100,000 men engaged in the construction of war material.

190,000 men engaged in the construction of war material.

"What I have seen does not indicate that the millennium is at hand, when swords will be beaten into plowshares. There never was another time in the history of the world when such energy, ingenuity and wealth have been devoted to war purposes. The resources and industries of many peoples are largely devoted to maintaining large standing armies and formidable navies. Fortunate are the people of the United States that they are welled in by two great oceans, yet this fact would not warrant them in any policy other than keeping a reasonable percentage of the population fully equipped and instructed in modern appliances and methods of war.

"It so happened that important events

the president of france. "I saw part of the French amany is not spectacular in appearance, set it has seen as the question of the German army, but are serviceable in indicate that it is well equipped for warlist uniforms are not so handsome as those of the German army, but are serviceable in earnest. There were 70,000 well-equipped, well disciplined troops, and the review by the president was one of the finest displays in have ever witnessed. The army of 70,000 the president was one of the finest displays in a service witnessed. The army of 70,000 the president was one of the finest displays in his president was one of the finest displays that we seen in the field in one solid mass and halted but a few yards from the president in almost a few yards and the field in one solid mass and halted but a few yards from the field in one solid mass and halted but a few yards from the field in one solid mass and halted but a few yards from the field in one solid mass and halted but a few yards and the field in one solid mass and halted but a few yards and the field in one solid mass and halted but a few yards and the field in one solid mass and halted but a few yards and the field manual president in a few yards and the field manual president in second the field manual president in second the field manual president in second the field manual president in the second the field manual president in the field manual president in the field manual president in the field

Kansas City's tens of thousands of visit-

This Week Should Go Home Hongry.

Kansas City's tens of thousands of visititors need not go hungry this week, for the market is well stocked with wholesome staples in the shape of fruits and vegetables. While prices are a shade higher on some things, they are lower than usual at this season on others.

Minnesota 'potatoes are abundant at 70 to 75 cents a bushel, while home grown potatoes sell from 50 to 60 cents. Shipments are increasing and lower prices are looked for immediately. Tomatoes are unusually cheap for this time of year, selling for 30 to 60 cents, according to size. The crop is closing, however, and higher prices will prevail from this time on. Onlons'are plentiful at 60 cents a bushel, and all sorts of "garden truck" are abundant at very reasonable prices. Apples, home grown, sell for 35 to 50 cents a bushel, and the new crop is beginning to come in. Grapes are still abundant at 15 cents per basket. Peaches are scarce at 15 to 30 cents per basket. Watermelons have taken a brief spurt during the past week of warm weather, and will be plentiful this week. Good melons can be bought for 15 to 25 cents. Poultry is abundant, but commands pretty stiff prices. Springs bring 10 cents, live weight, and 11 to 12 cents per pound, dressed. Hens sell for 8 cents, ducks 9 to 10 cents and turkeys 10 to 12 cents.

Strictly fresh eggs are scarce at two dozen for 25 cents, the best grades at 30 cents.

Pennsylvanta Anthracite Coal. We are now ready to make deliveries of all the sizes of the best grades of Penn-sylvania anthracite coal at \$5.50 per ton for September delivery. Place your orders now before an advance in price and save money. CENTRAL COAL & COKE CO., Keith & Perry bidg. For sale by Ernst Stoeltzing, 1415 Grand money.

"ACTINA," A MARVELOUS INVENTION, WHICH IS MYSTIFYING THE OCULISTS, OPTICIANS AND PHYSICIANS OF AMERICA AND EUROPE.

NO DRUGGING TO POISON THE SYSTEM!—NO CUTTING TO TORTURE THE FLESH!

IS A PERFECT ELECTRIC POCKET BATTERY, usable at all times and is all places by young ACTINA or old. The one instrument will cure a whole family of any of the following forms of disease:

DEAFNESS, ASTHMA, SORE THROAT, COLDS, BRONCHITIS, LUNG AFFECTIONS,

Without Medicine or Operations of Any Kind.

Just as the people a few short years ago were mystified by the advent of the steam engine, steamship, the telegraph, telephone and electric light, so are the people almost awe-stricken at the remarkable effects of "Actina." By its use the Blind See, the Deaf Hear, and Catarrh is Rendered a Thing of the Past. Of what value is the practice of medicine when, after hundreds of years of experiment, a case of catarrh has never been cured by medicine? This is also true of Hay Fever and Neuralgic Headaches. Then, again, the oculist will tell you that myopia or nearsightedness can never be cured. They must admit their own failures, while they are obliged to be silent when they see the thousands cured by "Actina." "Actina" never fails to cure where properly used.

CATARACTS REMOVED.

Rogers Park, Chicago, Ill. Dear Sirs:-My Actina is doing its work surely, though slowly as was to be expected at my age, the 85th year, and the impairment of both hearing and sight of long standing The eye which two months ago saw on the printed page only a blur now reads quite well. And the other eye (for both were affected with cataracts) is greatly improved. If it were not, I could not be writing this by gas light at least eight feet away. have recommended Actina in two cases. With high regards and hoping that all is well, I am Sincerely yours, 1034 Morse Avenue.

CATARRH AND DEAFNESS CURED.

New York and London Electric Ass'n, Kansas City, Mo.
Gentlemen:—I received your Actina on the 19th of May last, which I sent for to try it for the cure of Catarrhal Deafness, I have received great benefit from its use. The catarrh in my head is a great deal improved and I can now hear better than I could before I got the Actina.

My wife has used the Actina about two months for a Cataract on her right eye. The Cataract has been reduced in size one-half in that short time and her eyesight is much improved.

I have no more pains across my forcheat nor any dropping of mucous matter into my throat. Both stopped by Actina.

I have told others suffering from Catarrh, Deafness and discased eyes about your Actina and they say they will get an Actina as soon as they can. Respectfully yours
